NEW IN ATOMIC SPA

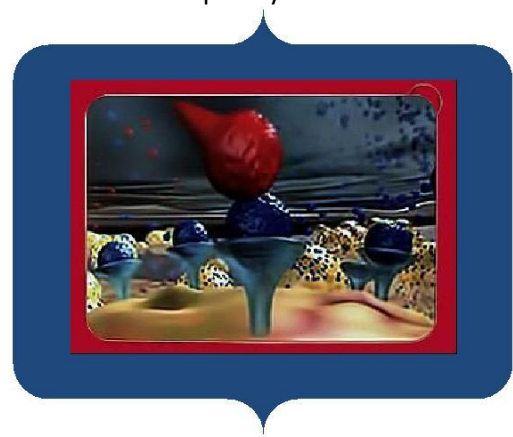

Orthokin®

THE CURE IS INSIDE OF YOU

autologous conditioned serum

- **to treat affected joints, spine, injuries of joints, tendons, muscles, ligaments**

Special hospital for rehabilitation "Gornja Trepča" tradition is to follow contemporary trends both in equipping and in treatment. The introduction of new medical procedures allow patients to receive better service, and that the effects of their recovery rises to a higher level. So until the end of 2013 we have began with Orthokin method, that belongs to the field of regenerative medicine and we are one of the few institutions in Serbia in which this method is applied. **It is particularly important that the application of these methods and classical rehabilitation offered by the Atomic Spa increase favorable effects on diseased tissues and organs.** In particular, this is about the treatment of joints, the spine and injured muscles, tendons and ligaments.
